

mavlink::Message

```
classDiagram
    class mavlink_message["mavlink::Message"]
    class mavlink_common_msg["mavlink::common::msg"]
    mavlink_common_msg --|> mavlink_message
```

The diagram illustrates a class inheritance relationship. At the top is a white rectangular box with a black border containing the text 'mavlink::Message'. Below it is a larger, gray rectangular box with a black border containing the text 'mavlink::common::msg' and '::GIMBAL_MANAGER_INFORMATION' on two lines. A solid blue arrow points vertically from the top center of the gray box to the bottom center of the white box, indicating that 'mavlink::common::msg' inherits from 'mavlink::Message'.

mavlink::common::msg
